Sixty-eight years ago, the nation of Israel was reborn. After losing identity for 2,000 years, Israel's rebirth on May 14, 1948, is truly remarkable. Today, Israel boasts a population of 8.5 million.

Though only about the size New Jersey, Israel is a world leader in medicine, technology, and agriculture, and has a military that ranks among the finest. Events surrounding Israel dominate the daily news.

In today's study, we will learn that Israel's past failures and current hardening toward God is not final. One day, all of Israel will be saved.
